

SWW&WW Bike Racks & Bike Repair Station

We added a bike repair station with tools, an air pump, and an E-Bike charging station at the new restroom facility in Nevers Park next to the soccer field! The facility also has a water bottle refilling station, picnic tables and a bike rack. Enjoy a snack while charging your electric bike.

Look for our bike racks at parks, schools, libraries, businesses and popular gathering places in South Windsor. Please note the new bike racks at Dynamic Fitness Results on Rt. 5 and at CT Valley Brewing Company on Sullivan Avenue! For information on acquiring a bike rack at your business, check out our Bicycle Rack Cost Share Program on our [Facebook](#) or help us purchase additional bike racks for the town by making a donation to South Windsor Walk & Wheel Ways through the South Windsor Community Fund at www.swfoundation.org.
